

# 2018-19 NCSWEOA Winter Workshop Series Program II

Thursday, March 14, 2019

## Ordinance & Enforcement Program Development

This workshop will focus on creating a solid waste ordinance that will provide a framework on which to build a successful environmental enforcement program. Participants will learn about the parameters of local authority. Speakers will present their own experience in developing ordinance provisions tailored to their jurisdictions. Open discussion will allow participants and speakers to focus on specific enforcement needs related to citizen complaints, illegal dumping and roadside litter, and how to address those needs in their local ordinances.

***Participants - please bring a copy of your ordinance with you!***

<b>Location:</b>	<i>Randolph Community College Continuing Education &amp; Industrial Center</i>	<i>413 Industrial Park Avenue, Room 103, Asheboro</i>
8:30 - 9:00	<i>Registration &amp; Check-in for Workshop</i>	<i>Coffee and light snacks provided.</i>
